

Marvellous Me

Reception Autumn 2023-2024

Our school is called Mexborough St John's Church of England Primary School and we are in F2. During our first weeks of school we learn about rules and routines. We also get to know each other and start to build friendships.

Big Question: Are we all the same?

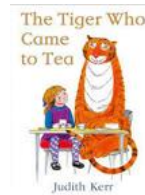

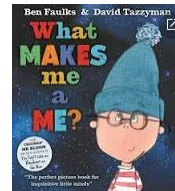

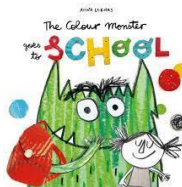

This is our first topic in school and we will learn about ourselves, our body and our school. There are over 7 billion people in the world and we are all different!

Unique

We are all different and our differences are what make us special. Our family is unique and in school we will have to opportunity to talk about our family and people who are special to us. A good way to share information about ourselves is to make a self-portrait!

Books we will read

Our body

We change as we grow. Our body is made of a skeleton which keep us upright and our muscles help us move our body. Our skeleton is made up of different bones such as a skull, spine (backbone), hipbone (pelvis), leg bone.

Vocabulary

Family - People you live with and care for you.

Family tree - A diagram that shows all of your family.

Unique - We are all different and one of a kind.

Self Portrait - A picture that we do of ourselves.

Skeleton - This is the hard structure that supports the body of a living thing. It can be made of bones.

Body parts- Examples would be hip, neck, shoulder, shin, leg, ankle, arm, elbow

Bones - Bones make up our skeleton, such as skull, spine (backbone),

Muscles - Our muscles allow us to move.
